November 16, 2009

Dear Mr. Mark Fisher:

I am writing you today to make you aware of our presence in your Town of North Attleboro, Massachusetts. At Lighthouse Business Solutions we are a group of outsourced sales and marketing professionals that represent Verizons' FiOS service, in which our responsibility is to contact future and existing customers at their homes.

Our typical hours of operation are Monday through Friday from approximately 2 pm. until 8pm. As outsourced reps, Verizon provides us with leads containing the specific customers they would like us to contact. We will have approximately 10 representatives working door to door. Our reps are scheduled to be visiting the area of North Attleboro starting the week of November 16, 2009 and continue in the area until approximately November.

Per Verizon standards, every one of our representatives has passed extensive background checks for any state and federal criminal history, as well as a comprehensive drug screening. We take the utmost precaution in our hiring process. In addition to the background information, all of our reps have proper photo identification on themselves at all times and distinguishing Verizon apparel so they are easily recognizable.

I thank you for your time and patience.

Sincerely,

Renee D'Ambruoso
Management Support Specialist,
Lighthouse Business Solutions, Inc.
